

# Out With the Old, In With the New

For a limited time, VIQUA is offering an upgrade program.\* Earn a FREE VIQUA lamp and sleeve when you replace an old system of a comparable flow rate with any qualifying VIQUA UV system. It doesn't even have to be an old VIQUA system—any brand of UV system qualifies.

**FREE  
VIQUA lamp  
and sleeve  
when you  
upgrade!**

## The program is simple. Here's how it works.

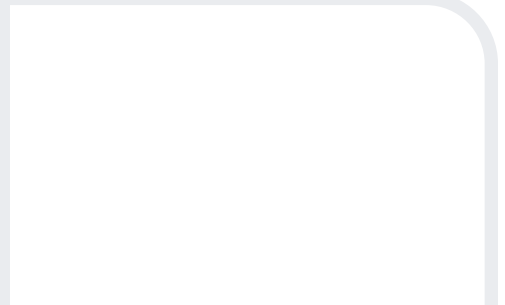

### Replacing VIQUA with VIQUA

- Replace a discontinued VIQUA system with a new VIQUA system of comparable flow rate. (For example, replace an S8Q-PA at 10 gpm with a VH200 at 9 gpm.)
- Submit a picture of the old system and the serial number of the replacement system to your supplier, VIQUA regional sales manager, or [customercare@viqua.com](mailto:customercare@viqua.com). Use promo code P/VIQUP/5.

### Replacing a non-VIQUA system with VIQUA

- Replace the older system with a VIQUA system of comparable flow rate. (For example, replace any 10 gpm system with a VH200 at 9 gpm.)
- Submit a picture of the old system, the system part number, and the serial number of the new VIQUA system to your supplier, VIQUA regional sales manager, or [customercare@viqua.com](mailto:customercare@viqua.com). Use promo code P/COPUP/5.

**For more information, contact:**

\*Note: This offer cannot be combined with any other promotion. This offer excludes VIQUA high-flow systems (SHF series).
